Weighbridges and Dosing

Dini Argeo offers weighbridges of various lengths, both standard and with double track, featuring mobile ramps, fixed ramps, recessed ramps.

**The best solution  
for advanced industrial  
applications**

## Where to Use Weighbridges

- Agri-food Industry
- Logistics Industry (SOLAS)
- Ceramic Industry
- Mechanical Engineering Industry
- Building Industry
- Shipyards and Ports

## Our solutions

- Our dosing solutions also weigh vehicles in both indoor and outdoor environments, preventing the need for bulky machines or costly masonry work.

A wide range of weighing terminals enables control of advanced automation systems for vehicle loading.

All Dini Argeo weighbridges are approved for use in connection with third parties compliant with the SOLAS directive, so customers will benefit from the 2017/2018 hyper-depreciation.

## Products

- WBSA Approved Series Modular Type “America” Weighbridge: The WBSA Approved Series weighbridge is well suited for industrial, agricultural and commercial use. A modular new generation of weighbridge, the standard WBSA Approved Series is fitted with CE-M 3000+3000e approval for Legal for Trade use.
- DTW Dual Track Vehicle Weighing Series: The DTW Dual Track weighbridge features reduced height and weight, promoting easy transportation and installation. Designed and built with quality materials, the DTW is the most efficient solution on the market for saving time, space and money.
- Weitruck Weighbridge Management Software: Weitruck gives users complete control over their weighbridge systems, offering a simple and intuitive operator interface. Databases for storage of customer, material and vehicle data are also available with Weitruck.

## Our network of specialised partners

- The solutions shown in the examples have been carried out by our network of specialised partners worldwide.

We thank the companies that own the photographic material for granting the permission for its use, as well as for their competence and professionalism.

If you are interested in receiving more information, do not hesitate to contact us: we will be able to advise you relating to the solution you are looking for, together with our nearest local partner.

- *In the example shown, dual track DTW mobile scales have been installed using solely a forklift truck—which isn't possible with conventional modular weighbridges.*
