

## CH-repeaters-01

### Weight repeater

Examples and installations of weight repeaters.

**The best solution  
for advanced industrial  
applications**

## Where to Use Weight Repeaters

- Agri-food Industry
- Logistics Industry (SOLAS)
- Ceramic Industry
- Mechanical Engineering Industry
- Building Industry
- Shipyards and Ports

## Our solutions

- Dini Argeo offers a wide range of weight indicators and repeaters featuring a bright, large display, ideal for displaying weight outdoors and from long distances.

Available options include ATEX-certified models approved for use in Zones 2 and 22.

- With the help of a Dini Argeo GLR100 weight repeater, we helped congratulate the winner of the Guinness World Record's "World's Largest Panettone Cake." A weight repeater connected to a 3590EGT8 weight indicator displayed the weight of the World's Largest Panettone Cake: 332.2 kilograms. With full battery power and a traffic light feature, the repeater changed the color of the weight display from red to green as soon as the previous record was beaten.

## Products

- DFW and DGT Series Repeaters: The DFW and DGT Series indicators can be used as weight repeaters in combination with the optional MSTSLV program, designed for using the indicator as both a UNIVERSAL weight repeater and a MULTI-SCALE repeater (MASTER).
- GLR100 Alphanumeric Repeater: The GLR100 is an alphanumeric graphic repeater with a high luminosity, LED matrix for displaying weight and operational messages. Display weight with large digits or customizable operational messages with an applicable indicator.
- DGT603GD: Maxi Goliah Weight Indicator-Repeater for Hazardous Areas: Ideal for use in hazardous environments, the DGT603GD is fitted with a bright, LED matrix display and IP68 stainless steel case. Approved for use in multiple ATEX areas.
