

SCALEAPP

SCALEAPP: MANAGING THE SCALE WITH YOUR SMARTPHONE OR TABLET

ScaleApp allows you to connect with the weighing system, via **Bluetooth** or **WiFi**, giving a real-time reading of the weight and performing all of the functions required to use the system (zero, tare, management, saving and sharing weighs).

The best solution
for advanced industrial
applications

BENEFITS

- Remote weighing operations, without touching the scale, for use in harsh industrial environments or unreachable weighing systems (dynamometers, wall indicators, forks, etc.).
- Net, gross and tare weight reading.
- Weight zeroing, semi-automatic tare, manual tare and tare database (up to 6).
- Entering texts/identification codes for each weigh.
- Saving weighs and on-line sharing in the form of editable text.
- Management of approved scales.
- Monitoring the weighing system, with the possibility of connecting to a different system at a time.
- Communication with the scale through INTERNET via VPN connection to the company network, and to the scale connected to the network via WIFI module.

MINIMUM REQUIREMENTS

- Display 3.2" or greater.
- Minimum Android version supported: "Jelly Bean".
- WIFI or Bluetooth connection for communication with the scale.
- ScaleApp can be downloaded from the Playstore at the link below:
