## 880 Performance™ Series Digital Weight Indicator and Controller

Designed with the user process in mind and built for communication, Rice Lake's Performance™ Series weight indicators/controllers are packed with power, yet simple in design. Intuitive multifunction menu keys allow navigation in any application and the NEMA Type 4X/IP69K-rated gasket effectively keeps internal components out of harm's way. Twenty time- and weight-based setpoints provide ultrasensitiveness to handle any process control requirement. For customized operation, use Rice Lake's intuitive iRite software to program functionality specific to the application. The innovative 880 and 880 Plus also accommodate a wide range of connectivity—from USB and RS-232/ RS-485 to Ethernet TCP/IP. With two different enclosure types to choose from, Rice Lake's 880 Performance Series exceeds your expectations wherever you need it.

**The best solution  
for advanced industrial  
applications**
