

WEIGHVAULT

WEIGHVAULT®: CW90X SCALE MANAGEMENT SOFTWARE

*Weigh***Vault**®

Specific software for programming, controlling and saving weighing data directly on your PC. Weighvault® is ideal to monitor the weighing operations and productivity of your CW90X scales.

The best solution  
for advanced industrial  
applications

## STRENGTHS

- The advantages of WeighVault®:
  - Intuitive: easy to configure and use
  - Fast: fast data transmission and real-time inventory management
  - Modular: new scales can be added at any time
  - Customizable: store up to 10000 products, customizable with description, target and tolerances
  - Transparent: ensures traceability of the weighing operations carried out

## MAIN FUNCTIONS

- With WeighVault® you can quickly program, modify and manage every single product directly from your PC
- You can compile up to 10000 quick recall memories and manage up to 100 networked scales
- Each product is fully customizable with description, target and tolerances
- Scales can be added or moved without interrupting data acquisition in the network
- The operations performed are listed in a report showing the number of scales, the quantity of weighs performed, the average weight, the % accepted and the average transaction time
- Reports can be exported in Word, Excel or PDF format and printed.

## MINIMUM REQUIREMENTS

- Minimum system requirements:
  - 800+MHz Intel compatible processor
  - 1 GB RAM
  - 750 MB hard disk space
  - TCP/IP connection

## SUPPORTED PRODUCTS

- CW90X Series

## PARAMETERS FOR EACH MEMORY

- Available data:
  - Product ID for quick recall [4 characters]
  - Two description fields [32 characters each]
  - Target value
  - Tare
  - Overload value
  - Underload value
- Report:
  - Weights performed
  - Productivity
