

TWG

TWG SERIES OVERHEAD RAIL SCALES

Weighing modules for overhead monorails, easily adaptable to any handling systems, even existing ones. Fitted with OIML approved load cells as standard.

**The best solution
for advanced industrial
applications**

MAIN FEATURES

- It operates with 2 STAINLESS STEEL load cells with IP68 protection rating, approved according to OIML R60 C3.
- AISI 304 STAINLESS STEEL structure, fitted with accessories for fastening to the beam and threaded rods for fastening to the customer's track section.
- Electropolished structure for easy cleaning: the smooth surface helps reduce dirt accumulation and the proliferation of microorganisms.
- Maximum length of the overhead rail weighing section: 600 mm.
- Up to 15 Vdc power supply.
- Hermetic junction box and shielded 10m long 6-pin cable fitted with connectors for connection to the weight indicator.

OPTIONS ONLY AVAILABLE AT TIME OF ORDER

- Connection to the indicator and calibration with CE-M 3000e single range or 3000e+3000e dual range approval (with our indicators).
- Models with special sizes and capacities (ask for estimate).
- Possible adaptations with customer's track section (to be supplied per account of manufacture), which will be quantified upon job card cost account.
- IP69K version.

VERSIONS

Available versions

Codice	I x w x h (mm)	N° celle	Max (kg)	d (g)	M (g)*	M 2R (g)*
TWG30 	550x220x110	2x500kg	300	100	100	-
TWG60 	550x220x110	2x1000kg	600	200	200	100-200

(*) Divisions obtainable only with the relative options, in combination with Dini Argeo weight indicator.

NOTE:

- The track section to be applied to the scale and relative fastening to the threaded rods must be realized by the customer.
- ATTENTION: The order is possible only upon verification of the system's data, executed by our technicians when the filled out DataRequest_TWG_ENG module downloadable up here is sent.
- The capacity and division must be specified in the module for the verification of the feasibility, consequently to the requested features.
