

## KCP100H

"KCP100H" mounting kit for CPX compression load cells up to 100t

KCP100H is an accessory designed for the correct mounting and operation of CPX series compression load cells below large capacity silos, both horizontal and vertical, in indoor or outdoor environments (up to 100t per support point).

KCP100H offers high protection against overloads and side forces and actively contributes to protection against accidental overturning of the silo.

Available in EN 1090 certified version.

**The best solution  
for advanced industrial  
applications**

TECHNICAL FEATURES

- Designed for mounting 50 and 100t CPX cells
- Galvanized steel construction (stainless steel by quote)
- High resistance to tipping, up to 400KN
- Self-aligning joint designed to allow mechanical expansion of the structure while maintaining weighing accuracy.
- Locking screws and bypass for completely safe load cell maintenance.
- Total weight of the kit (without load cell): 90kg

•

	Protection	Force (KN)
↑↓	Max lift-off force	400
↔	Max side force	200
