

DLEGAL

D-LEGAL: VIRTUAL WEIGHT INDICATOR ON PC FOR APPROVED APPLICATIONS

D-LEGAL software can be used to turn a PC into an approved digital weight indicator in compliance with NAWI.

Using a virtual alibi memory for data storage, D-LEGAL can save approved weights in a single file on the PC. There is no memory limit and the data is easily accessible, searchable and can be exported to Excel.

D-LEGAL offers simplified data exchange with external applications through a comprehensive API package.

It is also available as an approved secondary display (D-REPE) and as a non-approved system for internal data management (D-API).

**The best solution
for advanced industrial
applications**

FEATURES

- The program interface includes the scale display and functions for zeroing the scale, taring containers, and saving weights to the approved database.
- Approved weight database (virtual alibi memory) provides protection against modification and makes data searchable and exportable to Excel.
- Virtually unlimited storage memory.
- Keyboard emulation function to enter the approved weight directly where it is needed on bills, invoices, etc.
- Available in 3 versions:
 - D-LEGAL for use in relationship with third parties
 - D-API for internal use only
 - D-REPE approved repeater.

D-LEGAL IS APPROVED FOR USE IN THIRD-PARTY RELATIONSHIP

- Due to the third-party relationship homologation, D-LEGAL enables the creation of homologated Windows application software by leveraging the API library.
- Type approval certificate available for download in the download area (TEC 0200-NAWI-12991 R.x)
Refer to the user manual for the registration and approval procedure.

MINIMUM PC REQUIREMENTS

- 4GB RAM.
- Processor Intel Celeron N3350 1.1GHz or equivalent.
- 200 MB of free disk space.
- Windows 10.
- 800x600 with 256 colours.

COMPATIBLE INDICATORS AND TRANSMITTERS

- DFWL PLUS
- DFWLI PLUS
- DGT4X
- DGT1SX
- DGT1P
- DGT1SP
- DFWIECEX
- 3590 touch screen serie(with D-API)

DEMO VERSION

- Download the executable in order to try out the functionality of D-API/D-LEGAL in DEMO version (follow the directions in the manual).
Note: DEMO version also requires connection to an indicator in the planned versions.
